SEND HOME LARGE FISH TO SHOW ANGLING LUCK

Benjamin Winne and Warren Powell who are on a fishing trip to Canada may return with stories of the big one getting away but a display of northern pike in the show window of the L. S. Winne hardware store on Wall street would indicate that not all of the big ones were able to escape the fishermen. A display of several big pike received from the fishermen in Canada indicates that they are having some good luck.

California Varsity Victorious, Washington Freshman Crew Wins

By FOSTER HALEY
(Associated Press Sports Writer)

Poughkeepsie, N. Y., June 18 (AP)—Rowing followers today were still singing the praises of the great west coast crews, the California varsity and the Washington freshmen as they reviewed the results of the renewal Saturday of the Intercollegiate Rowing Regatta on the Hudson.

Postponed for a year because of economic conditions one of the most colorful and stirring spectacles of the college sports world came back successful renewals since the first race in 1895.

A crowd estimated at from 25,000 to 50,000 persons saw a California varsity eight, every man of which was competing in the regatta for the first time, sweep to close but convincing victory in the four mile race and the husky Washington yearlings row to a five length victory in the two mile opening contest.

Only a smoothly stroking junior varsity from Syracuse saved anything for the east, the orange oarsmen get-

ting a close victory over Navy in the three-mile Jayvee contest. It was the only race the westerners did not dominate. California's Jayvees finishing a well-beaten fourth.

The varsity race was a war that lasted almost from start to finish. Cornell, Syracuse and Pennsylvania offered some early contention and a fighting Navy crew came up in the last half mile to almost nose out Washington for second place but through most of the four long miles it was the two west coast crews fighting it out between themselves.

The California victory was a tribute to the coaching genius of Bruce Beasdale, Ky. Ebricht, mentor of the California crews which won Poughkeepsie and Olympic titles in 1923 and 1932. Taking three straight juniors and five gangling sophomores he whipped them in a few short months into one of the smoothest-stroking eights that ever won a Poughkeepsie championship.

As every man is eligible for two more years of varsity rowing the search for the 1935 American representative in the eight-oared event at Berlin might well cease right now.

TO GIVE DEMONSTRATION WITH "LIQUID AIR"

Tuesday evening, June 19, the Men's Club of the Church of the Comforter will hold its last monthly meeting until fall. The officers expect a record attendance and would like to remind every member of the club that he may bring along a friend.

The entertainment committee will present as a feature for the evening, G. Harold Shoemaker, who will entertain with a series of demonstrations with "Liquid Air". The entertainment is said to be dramatic in its effect and the subject is one that is rarely presented before a lay audience.

Mr. Shoemaker, a member of the club, has had wide experience in experimentation with "Liquid Air". He is on the staff of the Catalina Mountain Star of Saugerties, and the club feels honored in being able to persuade him to give these demonstrations with "Liquid Air".

Home-made Bomb.

New York, June 18 (AP)—A home-made bomb with the four unlighted and some burning newspapers were thrown into the Beach View Cleaning and Dyeing Company's store at 32 Madison street today. The proprietor, John L. Tedesco, who lives over the shop, ran downstairs in time to extinguish the flames from the papers. He told police he had no idea who threw the bomb, which contained dynamite and black powder.

One Policy

One Grade

One Price

To make a pure motor fuel—which gives high-powered, knockless, streamline performance in any car, whether new or old, and still sell it at the same price as ordinary gasolines. That is the Sun Oil Company's one all-important policy.

Our one and only motor fuel, Blue Sunoco, is outstanding in every gasoline quality—fast in acceleration, high in knockless power, smooth in performance, economical in mileage, uniform and pure—yet sells at regular gas price.

Since we make only one first-grade motor fuel—not two or three grades—great economies are effected in the refineries and warehouses, in the number of delivery trucks and gas pumps. That is why we are able to sell our one—and only—high-grade Blue Sunoco at regular gas price.
